Dear Sir:

In response to the restriction requirement set forth in the Office Action mailed April 7, 2005 (Paper No. 20050324), Applicant hereby provisionally elects group I, which relates to an integrated optical waveguide with a patterned upper cladding for continued examination. Applicant further elects species A, which relates to a waveguide with a waveguide lens unitary body.

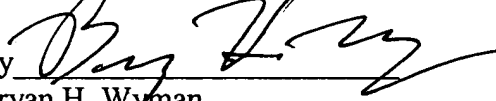

Additionally, Applicant elects sub-species D with traverse. Sub-species D relates to a waveguide made of a polymer curable by actinic radiation. Sub-species C relates to a waveguide made of a thermally curable polymer. Both sub-species C and sub-species D relate to a waveguide made of a curable polymer. Applicant requests that the Examiner search both sub-species C and sub-species D together.
